First Reseller: Trenz Electronic

Stukenbrock, 19th December 2012 - Trenz Electronic will be first reseller of Tinkerforge products.

Tinkerforge products are available for about one year now. After the expansion of the product catalogue the next step for Tinkerforge is to find reseller to get a bigger market presence. With the Trenz Electronic GmbH Tinkerforge has attracted a first reseller.

Trenz Electronic was founded as a engineering company 1992 with a focus on FPGA hardware designs. Since 2001 they have their own webshop and sell different FPGA and development boards as well as different electronic parts. Trenz Electronic is reseller of well-known companies like Xilinx or Digilent.

All Tinkerforge products will be available in Trenz Electronic's webshop at beginning of January 2013.
